Subject: Application for Front-End Developer Position

Dear Meet Patel,

I am writing to express my interest in the Front-End Developer position at your organization. I recently completed Front-End Development training and have hands-on experience in HTML5, CSS3, JavaScript, Bootstrap, and React.

I worked on responsive web pages, interactive user interfaces, and front-end development projects. I also developed multiple responsive websites, including restaurant, hotel, food delivery, and pizza ordering platforms.

I am passionate about creating user-friendly web applications and continuously improving my technical skills. I would welcome the opportunity to contribute to your team and help build innovative digital solutions.

Thank you for your time and consideration. I look forward to discussing my qualifications further.

Sincerely,
Umang Koladiya
